## Profile

Self-motivated and hardworking fresher seeking for an opportunity to work in a challenging environment to prove my skills and utilize my knowledge & intelligence in the growth of the organization.

## Languages

• Hindi ★★★★★ • English ★★★★★

## Education

### Bachelor of Computer Application (BCA)

*Shri Ramswaroop Memorial College of Management*

2021 – present | Lucknow, India

### Intermediate (ISC)

*St.Xavier's School*

2019 – 2021 | Siddharth Nagar, India

### High School (ICSE Board)

*St.Xavier's School*

2019 | Siddharth Nagar, India

## Skills

### Front-End Web Development

● ● ● ● ●

HTML5, CSS3 Bootstrap, Tailwind CSS, JavaScript, React, Next.js,

### Back-End Web Development

● ● ● ● ●

Node.js, MongoDB, Firebase, MySQL, PHP,

### Programming Languages

● ● ● ● ●

Java, Python

### Software

● ● ● ● ●

VS-Code, Android Studio, MS-Office, Adobe Photoshop, Video and photo editing software

### App Development

● ● ● ● ●

Java

## Certificates

• Java Software Development [🔗](#)

## Interests

• coding

## Projects

### Web Video-Call

(React, express socket.io)

### **bootstrap-finds**

(React, Bootstrap)

This project is related to Bootstrap and offers a collection of pre-made Bootstrap components that can be easily copied and utilized in a website or project.

### **furno-care E-commerce Webapp**

MERN stack (MongoDB, Express, React, Node.js)

**An e-commerce web application for selling high-quality furniture products.**

User Authentication, Product Catalog, Shopping Cart, Checkout Process, Admin Panel, Responsive Design, Payment Integration, User Reviews and Ratings, Order Tracking, Backend Server, Database Management, Deployment,

### **Academicqueries**

MERN stack (MongoDB, Express, React, Node.js) and Firebase

A user-friendly web application that provides free access to a wide range of previous year question papers. Users can easily find and download these papers in PDF format for offline use on various devices. This platform is designed to support students, educators, and exam preparation by offering convenient and accessible study resources.

### **Drdoc**

MERN stack (MongoDB, Express, React, Node.js) and Firebase

Developed a MERN-based web application that enables users to securely upload and store their medical records for future reference. The platform also features an integrated online pharmacy for purchasing medicines and a real-time chat system for direct communication with healthcare professionals, including doctors.

### **Diraaz E-commerce Webapp**

(MySQL, Express, React, Node.js)

Designed and developed an e-commerce web application for the online sale of coffee products. The platform, built using the MySQL database, Express.js, React, and Node.js (MERN stack), comprises two distinct sites: one for administrators and another for clients.

- **Client Site:** Created a user-friendly interface for customers to browse and purchase a variety of coffee products, complete with detailed product listings, secure payment processing, and order tracking capabilities.
- **Admin Site:** Developed a dedicated admin portal for managing products, orders, and user data, offering features such as product addition, order tracking, and user management.

*This project demonstrates my ability to build a full-featured e-commerce web application using the MERN stack while providing a seamless shopping experience for clients and efficient management tools for administrators.*

### **Stock-management-system**

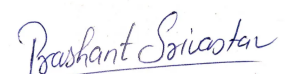

Engineered a stock management system utilizing the MongoDB database, Express.js, Next.js, and Node.js (MERN stack), integrated with Firebase for advanced stock management capabilities.

- **Database:** Leveraged MongoDB for efficient data storage and management, ensuring data integrity and scalability.
- **User Interface:** Developed a user-friendly web application using Next.js, allowing users to easily manage and monitor stock levels, track inventory changes, and view product details.
- **Firebase Integration:** Integrated Firebase services to enhance stock management.

### **Declaration**

---

I hereby declare that the above-mentioned details are true and best of my knowledge.
